

An Account with Close Brothers Seydler Bank AG

Our New Service for Corporate Clients

Close Brothers Seydler Bank AG, a securities house with a full-banking license, expands its security deposit business services to corporate clients. In doing so, we complement our existing trading expertise with a professional management of security accounts and associated services as one of the leading floor specialist traders on the Frankfurt stock exchange, the market leading designated sponsor in Germany with over 160 company mandates, renowned sales teams, as well as successful trading departments covering the entire fixed income and equity range.

Use Our Account Services

After setting up an account with Close Brothers Seydler Bank AG, your securities will be deposited and administrated in compliance with all legal regulations. Your security statements and other relevant information like upcoming capital measures or invitations to Annual General Meetings will be sent to you conveniently by post. This service is provided with the support of our business partner, BNP PARIBAS Securities Services.

Rely on a Personal Account Manager

The account manager is your personal contact who will take your orders and will inform you on the current status of your trade execution. You decide what you buy or sell; we make sure the execution is according to your specifications, or to our Best Execution Policy.

Benefit from Our Trading Competence

We can buy any security – domestic or foreign – listed on the Frankfurt Stock Exchange or on any other German regional stock market. Additionally, we accept orders in these securities that are also traded in any of the major stock markets in Europe, Asia or the US. As a matter of course, orders can also be executed on a discretionary basis.

We would be happy to provide you with an individualised offer:
